**CHRISTUS ST. FRANCES CABRINI  
Hospital**

## *Colynda's Story*

"The big 'C' word scared me to death. But Dr. Watkins said, 'this is what we need to do.' And I thought, 'gosh, I'm not in this alone.' Now, that big 'C' word is not quite so big anymore. He saved my life and let me know we could conquer this...and we have."

*Colynda*

"The CHRISTUS mission is one that puts the patient first. It considers the spiritual needs of the patients in addition to the mental and physical needs. That holistic approach is a big part of getting the patient on the right road to recovery."

*Dr. Watkins*
