Tina's Story

"You never want to hear the word cancer. When you're diagnosed, you think it's a death sentence. But Dr. Aguilar told me, 'No Tina, it's not at all. We're going to treat it, you're going to take your medicine, and you're going to get better'. He was right. It was such a comfort to hear that, and to know that my doctor was also a cancer survivor. He truly understood what I was going through.

I'm so thankful for the CHRISTUS Cabrini Cancer Center and their faith-based care. I feel totally blessed to have Dr. Aguilar as my surgeon. His smart medicine and Cabrini's healing grace have made a huge difference. I'm living proof of both."
