Hospital

Emily's Story

"My mammogram revealed my worst fear: breast cancer. Thank goodness Dr. Conerly was so comforting. He helped me choose the best surgical option and here I am! I can just go on and on about how much he and his staff went out of their way to make me feel like I was their only patient. I felt like I had a CHRISTUS family looking out for me."

Emily

"The CHRISTUS mission is according to what I believe: to extend the healing ministry of Jesus Christ. With Emily, we went through all the options and chose, what I believe, was the most appropriate for her. Her results have been excellent and it has been my honor to care for her."
